Class I Supplies

There was a former German flour mill and bakery in Neu-
 strelitz which was used as a bakery and bread storage point
 for all units of the 9th Guards Tank Division. The 17th,
 33rd, 47th, 50th and 65th Regiments and other subordinate
 units of the division picked up bakery products there daily.

[] There also was an emergency ration depot (NZ - Neprikosnovennye Zapasy) located in a large brick building adjacent to the bakery. Flour products such as cookies and crackers and canned fruit and vegetables were kept here, supposedly for combat use. []

[] that they were for emergency use and none were issued to troops from this point. []

Class II and Class IV Supplies

2. A clothing depot which serviced all units of the Second Guards Mechanized Army was located approximately one kilometer south of the railroad station in Fuerstenberg (5209N-1441E). It covered the area on both sides of the railroad line which runs from Frankfurt/Oder to Guhen. []

[] the barbed wire fence is visible from the road. []

[] this was a military []

Class III Supplies

3. There was a POL depot used by the units of the 9th Guards Tank Division located about one kilometer north - northwest of the outskirts of Neustrelitz []

Class V Supplies

4. [] the underground ammunition depot of the 9th Guards Tank Division in Neustrelitz [] is located about two kilometers north - northeast of the outskirts of the town. Rocket, mortar, artillery and howitzer shells were kept at the depot. [] this depot serviced units of the 9th Guards Tank Division but it may have serviced other units of the Second Guards Mechanized Army. []

[] Units of the 9th Guards Tank Division stopped by here when they went to the firing range with live ammunition. []

[] A guard detail of enlisted men from various subordinate units of the 9th Guards Tank Division was on 24 hour duty. They were billeted there while on duty and no other enlisted men or officers lived there. The commanding officer was attached to the Headquarters Staff of the 9th Guards Tank Division and lived in Neustrelitz []

6. [] the following figures on unit of fire:

TT pistol	32 rounds
Carbine	60 rounds
SMG	300 rounds
76 mm guns	240 shells
100 mm guns	150 shells
57 mm AT guns	240 shells
T-34/85	50 - 60 shells
IS-1 or IS-2	35 shells

The above figures are for peacetime training, and according to statements of some officers, for the first blow in combat action. After that time, a continuous flow, or as much as is required for offensive or defensive action, would come to the regiments and subordinate units from the USSR via the respective army and division.

7. []

[] the average cruising range of a prime mover on one tank of fuel is about 200 kilometers (three ton Studebaker).

8. []

[] in Neustrelitz [] heavy ponton equipment, three large amphibian trucks, and four amphibian trucks, 10 to 12 meters long and four meters wide, pass through the town.

9. []

[] gas masks are stored at the ammunition depot of the 9th Guards Tank Division.
